

IRFAN T

CAREER OBJECTIVES

To utilize my knowledge In electrical systems and Cad Tools to design efficient and innovative solutions while contributing to the success of dynamic engineering projects

CORE COMPETENCIES

- Prepare drawings of systems for clients using Auto Cad , Revit
- Design HVAC,Plumbing,and fire fighting systems in coordination with clients
- Preparing weekly and monthly report
- Planning entire work with coordinators and And submit the report

CERTIFICATIONS & TRAININGS

PG DIPLOMA IN MEP

Smeecs Labs ,Kochi
July -November ,2024

- Diploma In Electrical Design
- Diploma In HVAC
- Diploma In Revit
- Diploma In Public Health Engineering
- Diploma In Fire fighting

PROJECT

Design and implementation of Automatic Power Factor Improvement Panel

Designed the automated power factor corrector (APFC) using a capacitive load and implemented at machines Labs to a machine and improved the power factor rating.

EDUCATION

Electrical & Electronics Engineering ,Diploma

SSM Polytechnic ,Tirur
2021-2024

Higher Secondary Exam(science)

DEVADHAR Higher Secondary School,
Tanur
2019-2021

TECHNICAL SKILLS

Expertise in Auto Cad (2D)

Intermediate In Revit

Expertise In HAP

Expertise In MS Office

INTERNSHIPS

KSEB 110 kv Substation;-
Completed the internship on
adimali 110 kv Substation in
idukki, May, 2023

Learned the practical operations and networks of the 110 Kv substation under KSEB engineers in adimali substation
